Position Rollovers 2020

X Open Hub will automatically rollover your open positions for Commodities, Indices, Bonds, Volatility and Emission Allowances to the next liquid contract, before the current contract expires. Below is a table of dates the rollovers can happen.

Please note that this information is for indication purposes only and is subject to change due to either low liquidity or unforeseen changes by the exchanges.

Change of position value connected with base change will be corrected by swap points equal to base value.
Clients with limit and stop orders close to current price are kindly requested to adjust their position to changes in base value.
Otherwise stop and limit orders will be executed according to standard procedure. Please note that a stop out could be executed when there is a rollover.
